Resolution.—There are only four such large jatres in the district as noted in the margin ; that most of these jatres take place in the dry months of the year ; that it is difficult to provide accommodation, except for the sick and infirm, for the Hospital and the Hospital Assistant ; that pilgrims carry their own provisions or obtain their supplies in the bazaars, which are generally opened at these jatres ; that it is absolutely necessary to provide wholesome drinking water by sinking new wells where necessary, and by securing existing sources from pollution, that sanitary trenches with provision for privacy and separation of sexes should be provided, the trenches being daily filled up with fresh earth, and that within fixed limits of the locality, commission of nuisance should be strictly forbidden.

Resolution.—In confirming previous resolutions deciding on the necessity for an establishment for supervision of Local Fund works, resolved that the lowest average expenditure on Municipal and District Fund works in a year is never likely to fall short of Rs. 30,000 to Rs. 35,000, and that 10 per cent on this would give Rs. 3,000 or more from which the following establishment may be entertained.
